

# Biker Brothers

We've ridden together for many a year.

Even if distance separates us our friendship Endure.

Though our lives have changed and Evolved the older we get.

We still enjoy getting together and Shooting the shit.

We talk about - cycles of course, wives and Kids, marriages present and past.

It ends too quick - the time goes so fast.

We plan trips and rides and talk About places we'd like to go.

And hope our wives won't say no.

Riding these 2 wheeled machines

The scenery we've seen, the thrills and fun That's been had.

The memories they've given are never bad.

We kid each other about our weight And our hair.

A love we have, a brotherhood we Share.

The new year is coming and coming fast.

One thing we can be thankful for is our

Friendship - Future and Past.
