

THE CHRISTMAS FART

Mrs. Claus made Santa get an early start this year
Because Santa had been eating sardines and drinking beer.

It all started early that morning you see
As Santa had been on the Sardine and Beer diet for a day or three.

Santa's stomach began to burble and rumble
And out from his butt a prodigious fart did tumble.

So odious and rank was this gas
It burnt a hole in his underwear right by his ass.

Now Mrs Claus said with a burning tear in her eye
Santa it's time for you to fly.

Santa being the good husband that he is
Knew Mrs Claus meant Biz.

So out to the barn Santa went to get the Reindeer
They all looked at him in fear
Cause they all knew he had been eating sardines and drinking beer.

With a shout and a holler
Santa got all the reindeer in collar.

Going out of the barn Santa felt a rumble from within
He knew it would be a good one by the tingle of his skin.

Out it came the odious blast
It made a shiver run up the reindeers backs
Just before they all passed out in their tracks.

After an hour or two had passed
All the reindeer were back on their feet after being gassed.

Santa laughed and had a good chuckle
As he hitched up the sleigh and tightened his belt buckle.

So this Christmas Eve if you see a flame streak across the sky
Don't be afraid its just gas coming from the Big Guy.

MERRY CHRISTMAS !
